UNITS	6-7		

Level 2 NVQ Passive Fire Protection Overview:

The Level 2 NVQ Diploma in Passive Fire Protection qualification has been developed for achievement in a real workplace environment which means you need to be employed to undertake this qualification.

This qualification enables the learner, to recognise their skills, knowledge and understanding as well as demonstrating their competence in the workplace when carrying out Passive Fire Protection.

You will be assessed against a set of performance and knowledge statements which have been derived from National Occupational Standards for your occupational area. You will be assessed by an occupationally competent and qualified assessor whose job is to work with you and help you complete your qualification.

This qualification supports the learner to attain enabling, fundamental and transferable practical skills with associated underpinning knowledge.

Benefits of achieving your Level 2 NVQ:

- Nationally recognised and accredited qualification
- Flexible qualification as you can complete in your own time.
- Help you to gain employment and show competency
- CITB Grants available

What is a e-portfolio?

An e-portfolio is a online portal where the user creates a portfolio of evidence that can be easily managed electronically.

The e-portfolio system enables the assessor to review, communicate and provide feedback to the learner.

As all the evidence collected is available online through the e-portfolio, face-to-face visits are very limited.

How the e-portfolio route can benefit you?

Upload Evidence from anywhere

Users can access their e-portfolio 24/7, on smart phones, tablets and computers.

Quick Feedback

The assessor can view evidence when submitted and provide feedback straight away.

All evidence available in one place

All evidence is saved in one place, rather than having evidence stored on multiple devices and have to remember where its been saved.

Easily communicate with assessor

The e-portfolio system has a built in communication system that notifies the assessor when the learner sends a message.

What is underpinning knowledge?

Underpinning knowledge is devised of skills and knowledge that the candidate can demonstrate on a specific subject or task.

How is underpinning knowledge achieved?

Candidates underpinning knowledge is achieved through the completion of series of questions that have been designed to get a complete understanding of the candidates skills and knowledge. The completed question will provide a clear indication of the candidates skills and knowledge level within that subject.

Example of an underpinning knowledge question:

Each question provided is linked to an overall unit and learning outcome.

Example Question:

Unit:

Maintain health, safety and welfare system in construction contracting operations management

Learning Outcome:

Understand how to maintain health, safety and welfare in the workplace

Question:

Describe what to identify as opportunities for improvements

What is performance criteria?

Performance criteria is designed to provide candidates with the opportunity to demonstrate their skills and experience.

How is performance criteria achieved?

Performance criteria is achieved through evidence collected and submitted relating to the specific criteria.

Types of evidence:

- Rams
- Drawings/Technical Specifications
- Quality Assurance Checks/Audits
- 2 minute video of the candidate carrying out tasks relating to all of the optional units. Videos should be taken by a third party *i.e. Supervisor/ manager*)

We recommend that learners collect as much evidence they can, before and throughout their qualification.

Mandatory Units:

The learner will learn key practical skills and knowledge in these mandatory units:

- Conforming to General Health, Safety and Welfare in the Workplace
- Conforming to Productive Working Practices in the Workplace
- Erecting and Dismantling Access/Working Platforms in the Workplace
